## 4 TONNE 360° SWIVEL SKIP DUMPER

### FEATURES / BENEFITS

- 360° rotation means higher operating efficiency
- Rearward travel with the operator facing in advancing direction
- Efficient loading and dumping in all directions
- Reduced steering means less fuel consumption
- Increased comfort to reduce operator fatigue
- Diesel engines and multi speed transmission ensure strength and durability
- Rubber tracks mean low ground pressure
- Great traction on boggy or muddy ground
- There is no need for a U-turn
